WANDE

For The Children More Smiles

Know Wande

Wande Group was founded in 1986 and headquartered in Nanjing, has been set up subsidiaries in Shanghai, Shenzhen, Hong Kong and other regions , customer service coverage of all domestic provinces, municipalities and autonomous regions and more than 80 countries and regions. With more than 200 acres of manufacturing base and R & D, design, manufacture, sales and service in one of the professional strength, Wande Group for the majority of domestic and foreign customers from a single product solutions (such as: a variety of series of recreational equipment, Fitness equipment, sports equipment, etc.) to a comprehensive sports fitness solutions (such as: the whole group of wisdom sports park, theme park, theme fitness park, etc.)with professional services.

Standards and Patents

Wande Group has participated in dozens of national standards on product safety standards and standards for the development and revision of the industry for the healthy development of a positive contribution, and won the National Sporting Goods Standardization Technical Committee awarded the "Standard Development Award." In addition, Wande Group attaches great importance to new products and new technology research and development, each year investing exceeded the industry average R & D funds for new products, with more than 300 effective patents, leading the development trend of the industry, effectively supporting the rapid development of the Group.

System Guarantee

Wande Group has passed ISO9001 quality management, ISO14001 environmental management and OHSAS18001 occupational health and safety management system certification, and took the lead through the German TÜV GS certification and the United States ASTMF1487 standard product certification, and has become an international amusement equipment manufacturers association (IPEMA) and member of the international association of amusement parks (IAAPA).

Quality and Experiment

In order to ensure product quality, Wande Group has established a scientific and strict quality assurance system, has the relevant quality control procedures and quality inspection standards from the new product development, design, procurement, production, delivery and after-sales service; At the same time, The use of the characteristics of the material and product features, according to the new national standards testing requirements and the EU and other countries related to standard testing requirements, the establishment of the domestic first-class comprehensive laboratory to meet the relevant standards to provide testing capabilities and testing projects, To ensure product quality and durability.

Global service

We have an efficient marketing and after-sales service team to provide our global customers with high quality products and satisfactory after-sales service.The world famous company KFC is our long-time loyal user, which is our best explanation for advocating global service concept, optimizing product quality and after-sales service.

A message from President

Welcome to our latest version. If you are our regular customer, you will feel that this year's version is very different from the past.

Yes, there have been many changes worth mentioning this year.

First, the company's name has changed. In order to accelerate the development of a wande, diversification, branding and globalization development strategy, in May this year, wande in the original company formed on the basis of Nanjing wande group, at the same time in the United States set up "North American business" (NABC), the research center of Taipei was established in Taipei, make wande group operating layout more tension, benefit allocation of global resources more effectively, realize the strategic target for wande group globalization.

Second, the business philosophy has changed. In order to adapt to the economic development of the consumption upgrade, we start from the "products" to "focus on customer experience", from the original model of 'product marketing" to "marketing model', by providing a simple 'product solutions" to provide a scientific and systematic "amusement fitness solution', from "pay close attention to internal' to "external', to this end, we will pay more attention to every customer's demand, pay attention to every customer experience, more detailed, more precisely, good service to our customers.

Again, the version style changed. We have a comprehensive revision of this year's version, from the whole design style to the division of product series and naming for adjustment and optimization, to make her better express our ideas and thoughts, to better help you understand and choose our products and services.

With the introduction of some new products and new product lines, our product line is mare abundant, and your selection is much larger...

1)in the 'new products", we have launched 6 new series of products, including:honeycomb series, bee series, style town series, cube series, owl series, pineal ball series, etc.The style of the town series products is made by the anti—beater board. The texture is resistant to deformation and discoloration. I hope you can see her and experience the joy she brings to you.

2)"animals" is our new this year, with animals as the theme of new product series, colorful, modelling is lovely animal image will be of the children, bring them endless play happy.

If you want a more comprehensive understanding of ourselves and our products and services, welcome to log in our website, the o9icial WeChat public platform "Nanjing wande", we will promptly release information about the new products and related services.

Finally, we look forward to working together with you in the future, guarding the children's happiness and good childhood, and care for the healthy growth of youth!

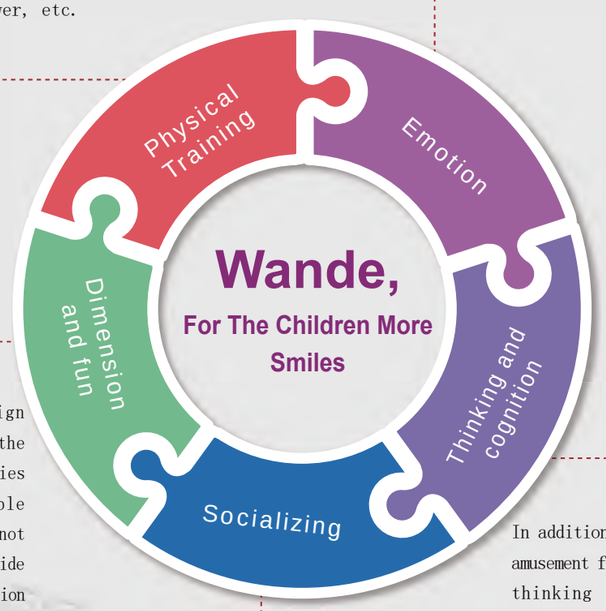

Wu Wanpeng
President
NANJING WANDE INDUSTRY GROUP CO.,LTD

NANJING
WANDE GROUP

Our amusement facilities at the beginning of the design is fully considered in children and adolescents physiological and physical demand, through a variety of functional component design, effectively promote the development of physical skills, including the balance, coordination, power, etc.

Our amusement facilities, through the experts' psychological analysis of children, our amusement facilities guide children to discover and solve problems during the game. To encourage them conquering challenges and building confidence.

Dimension and fun We design playground to activate all the senses and provide opportunities for children to get valuable exposure activities that can not often be replicated by the outside play. Many beneficial proprioception (spatial awareness) and vestibular (balance) experiences can also be found on our playgrounds.

In addition to emotional development, our amusement facilitied can inspire children thinking and cognition, through the facility functions combination to provide numerous competitive plays encouraging children to reverse thinking of practice, to solve problems, strategic thinking.

Social interaction is naturally on our playground. In a plasant atmosphere. The children can enhance their friendships, express themselves, stimulate their language skills, cooperate and share with each other.

Seed Theme Park

NANJING
WANDE GROUP

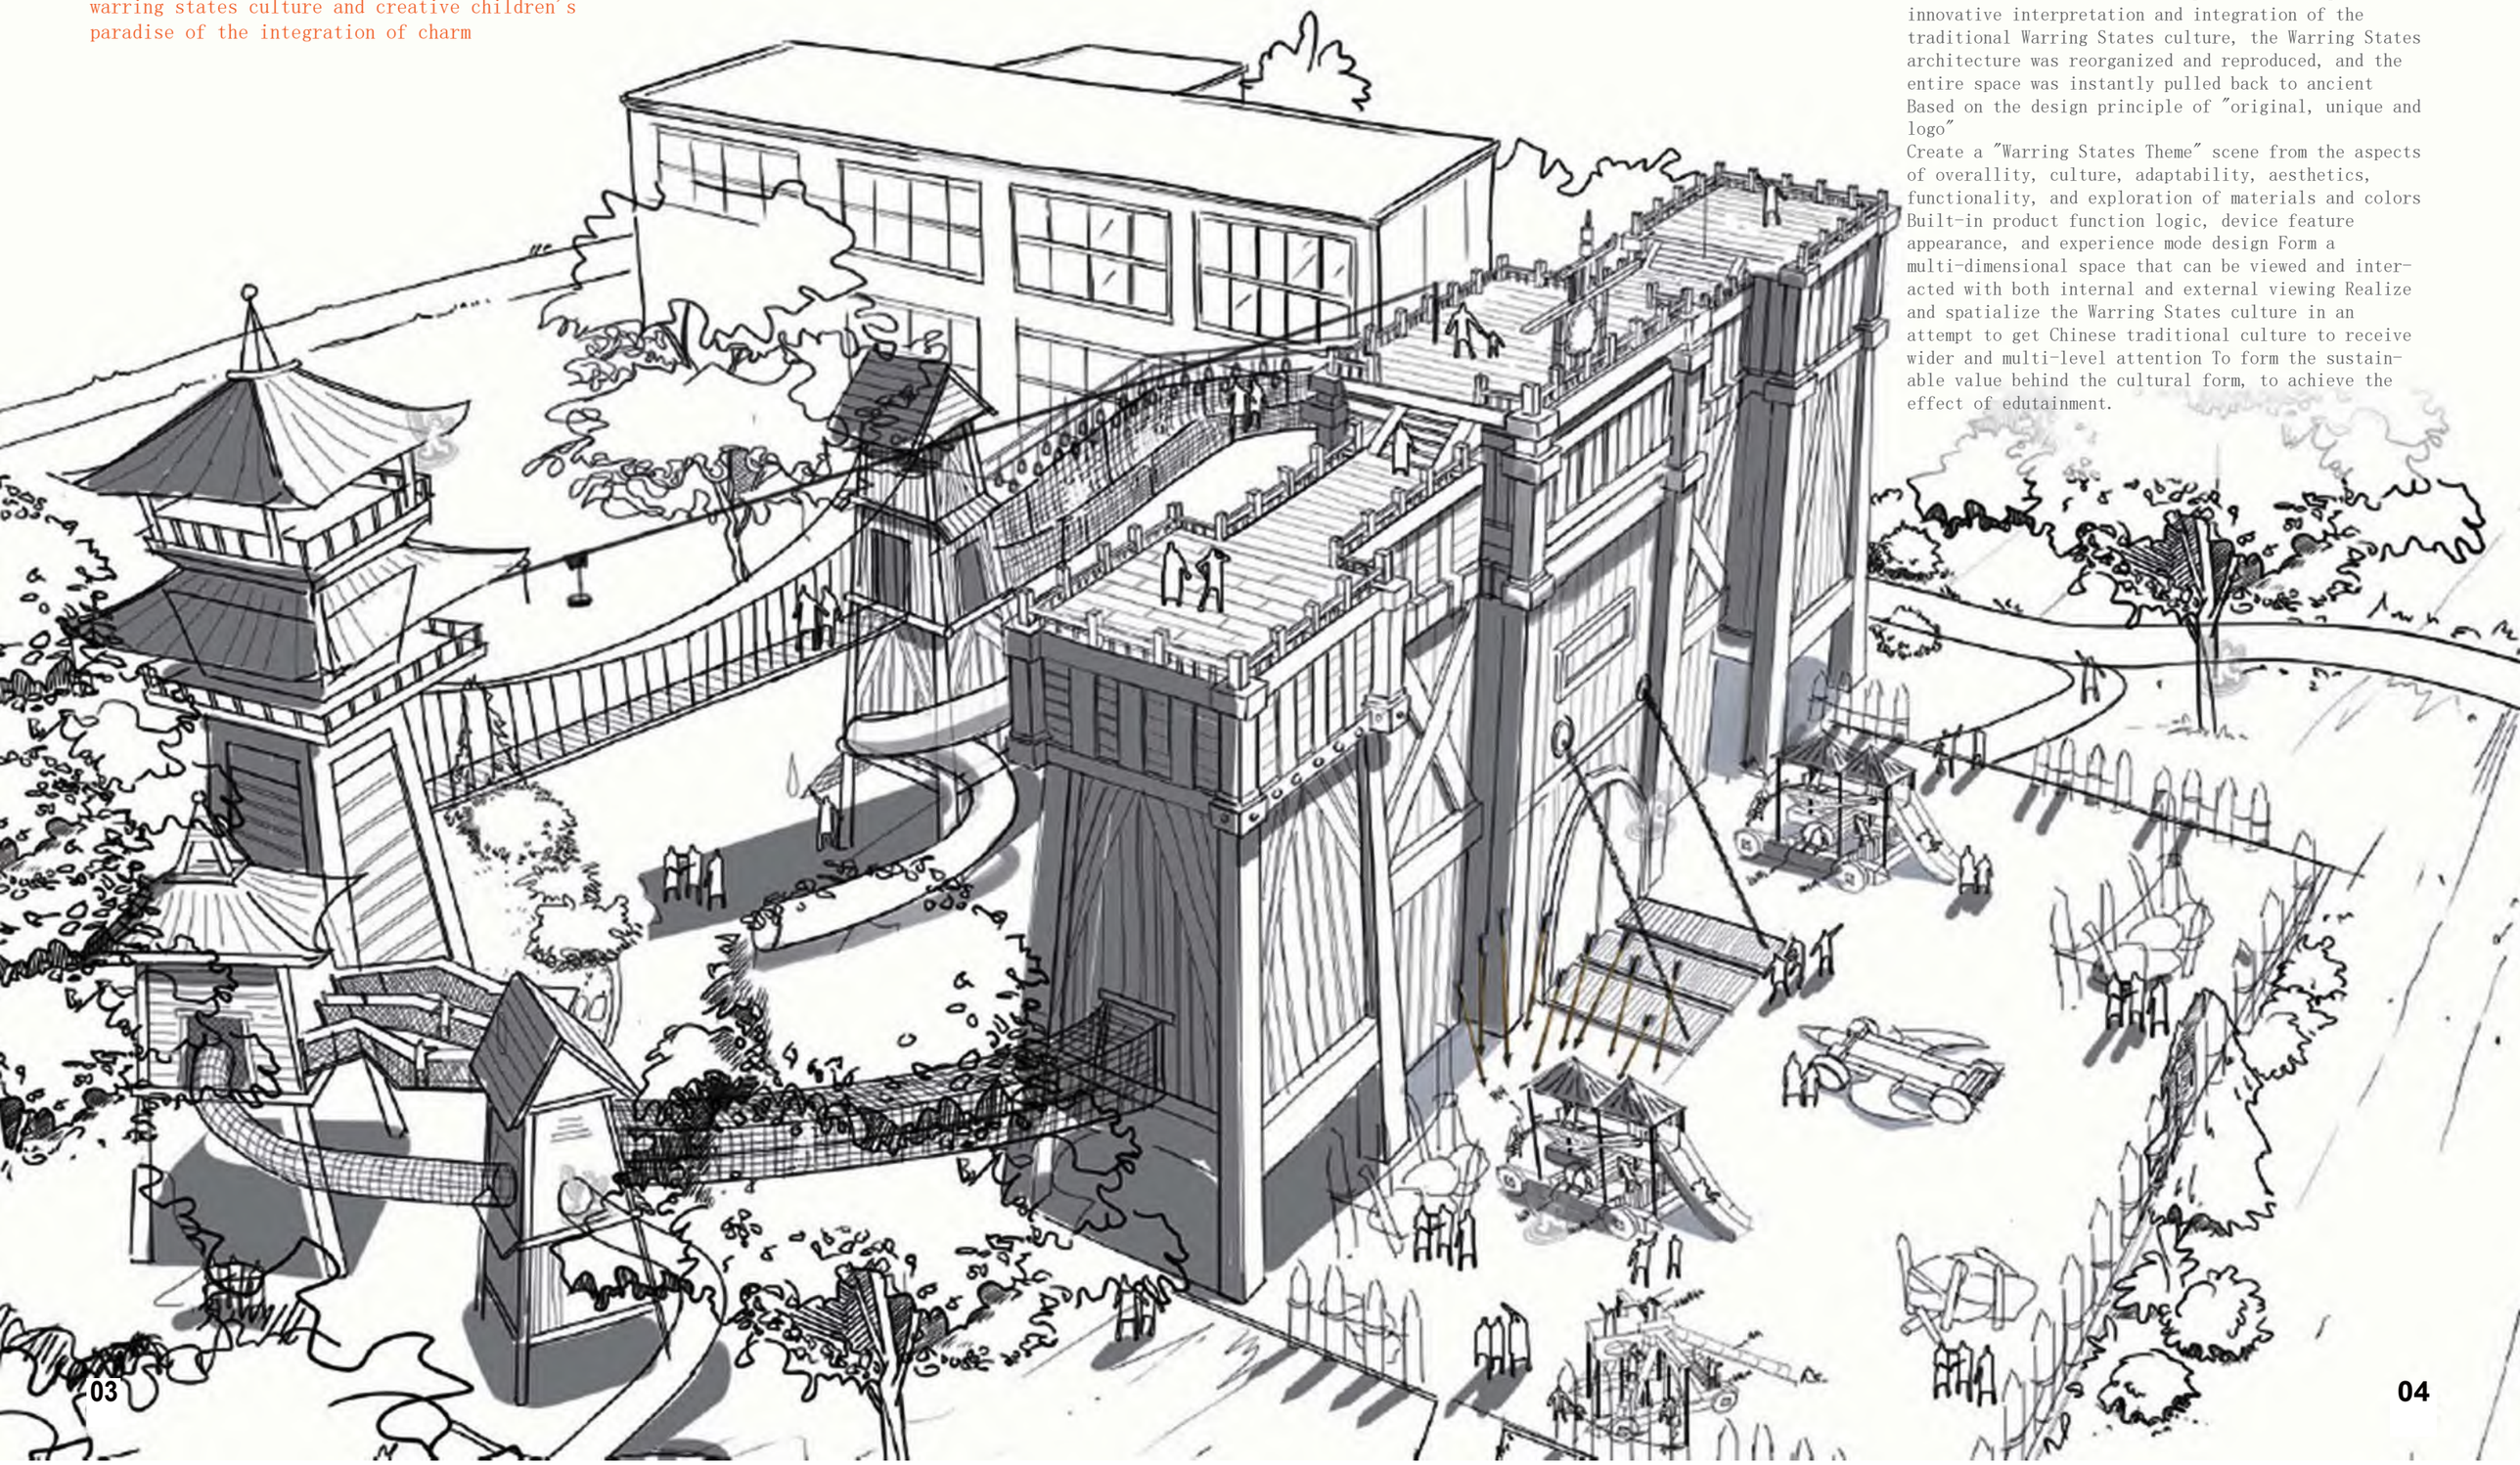

Every seed is a hope, they have big dreams, they grow stubbornly Embracing faith, perseverance, and hard work, they will definitely bloom a gorgeous and giant flower We have created a children ' s paradise about wonderful seeds and children ' s dreams about growth Take the life journey of small seeds as a natural science enlightenment for children Take the evolutionary process of seed biology as the main story line, so as to show the magical natural phenomena exhibited by ordinary living individuals Combining the most beautiful insects and butterflies in nature, and the squirrel to create a natural atmosphere Presentation of interactive devices by combining the experience of breaking cocoons and the rotation of butterfly wings Create an immersive, exemplary and educational space for children that integrates sports enhancement, parent-child interaction, and educational science Educate in the atmosphere of the playground, let us start a strange and challenging life journey with the little seeds!

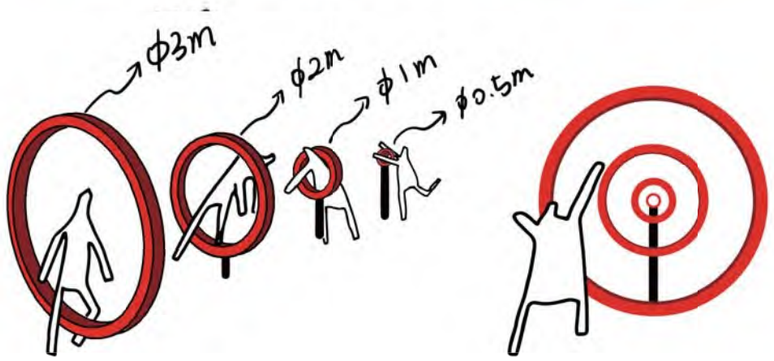

Sengoku Theme Park

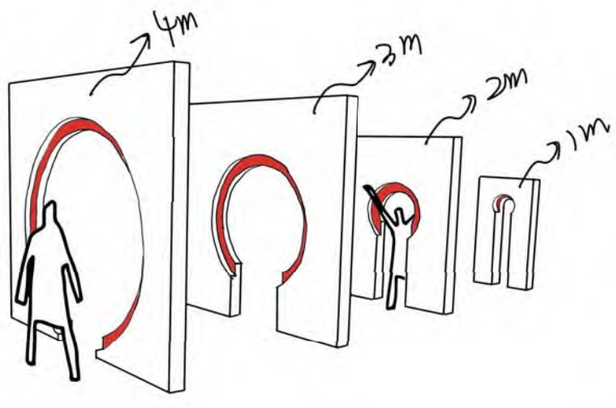

NANJING
WANDE GROUP

Through the axis of time, the traditional warring states culture and creative children's paradise of the integration of charm

Here is the innovative design model of children's playground Here is the interactive fun of the Warring States culture and children's paradise Through the innovative interpretation and integration of the traditional Warring States culture, the Warring States architecture was reorganized and reproduced, and the entire space was instantly pulled back to ancient Based on the design principle of "original, unique and logo"
Create a "Warring States Theme" scene from the aspects of overallity, culture, adaptability, aesthetics, functionality, and exploration of materials and colors Built-in product function logic, device feature appearance, and experience mode design Form a multi-dimensional space that can be viewed and interacted with both internal and external viewing Realize and spatialize the Warring States culture in an attempt to get Chinese traditional culture to receive wider and multi-level attention To form the sustainable value behind the cultural form, to achieve the effect of edutainment.

Fengxiang Lake Children's Theme Park

Multiple symbiosis, to create a children's paradise city sample

Fengxiang Lake Children's Theme Park

Based on multiple dimensions of urban dreams, ecology, cultural and creative, children s visions, fun to play, etcIt integrates"people, scenery, meaning, things, and fun" to create techniques,and connects the joyful space interaction of children of different ages Maintaining the original landform, retouching the details, creating a modern children-themed space within the traditional building that condenses the wisdom of predecessors Together, wisdom creates a hierarchical childhood joy space, conveys children's emotional demands, and creates a space where children can enjoy playing From every core equipment, to every supporting piece, logo, guide, from texture to modeling, through design techniques, ingenious movement to the entire theme park We plan to construct 7 themed areas: "Aerial Adventures,Sand Pool, Big Clock TowerBall Tower Area,Sailing Area,Water World,Pinocchio" The amusement equipment is perfectly integrated into the ecology and water bodies of the park. Many themes respect each other,but they are full of fun Gorgeous and passionate rocking horse, can fly you without wings Dune interaction, looking for the hidden treasure hidden in the sand Three-dimensional plant maze,jungle adventure interactive game like the Wizard of Oz, the fun of finding an exit can't stop Hold the childs hand and feel the new experience of subversive play。

Community Park Solutions

NANJING WANDE GROUP

Scene reconstruction, the whole scene smart sports community new ecology in the 5G era

Full-scenario coverage, full-smart interconnection, full-smart management, and a new socialized community-based sports new scene creation Define a space unit of 200-600 square meters on the scale of "mini-mini", covering a fifteen minute living radius, and focusing on the critical needs of comunity sports people Achieve 24 hour, personalized and intelligent one stop sports center to make sports at your fingertips Eimbed thematic design into the cammunity scene planning. full scene coverage, full chain connectivity Take the lead through the application of Intermet of Things technology, mobile Internet technology, big data technology, cloud computing technology, LBS positioning technology, wireless network technologyProvide the coumunity with a comprehensive health solution that integrates health testing, exercise scenario construction, and sports intervention as a whole, with scientific guidance, data, and fun competition from online to offline And establish a coumunity based large health data center for health management let the residents of the coumunity perceive the differentiated guality experience of the intelligent comunitv. recreate a new trend of community sports, and create a 15-minute scientific fitness circle.

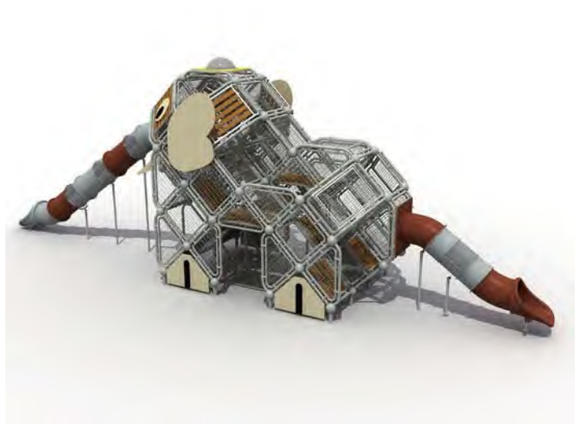

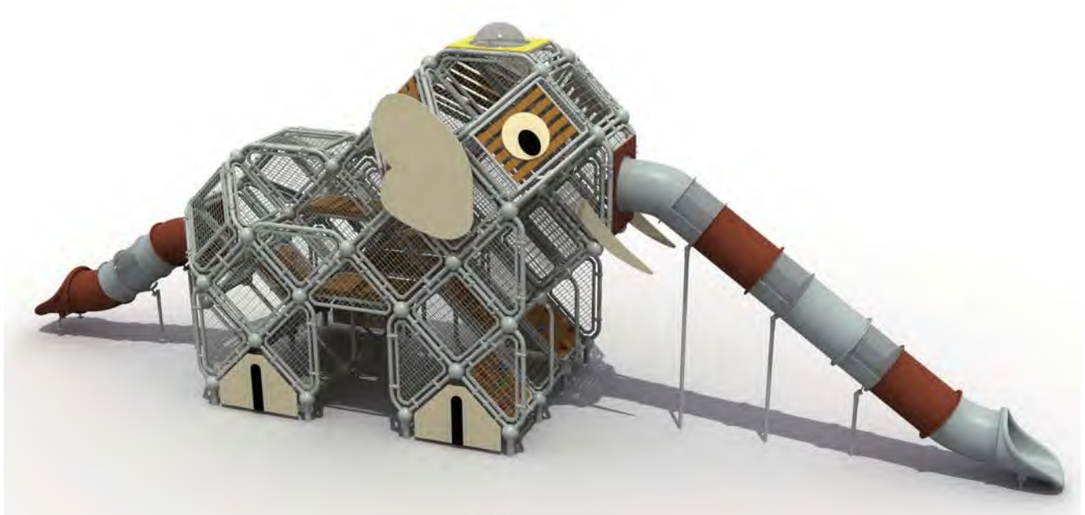

Rubik’s cube series

The playground we design can meet the various mental requirements of the children. All games are full of excitements and challengers and is suitable for the children to participate, compete and discover.

Ocean exploration

The mysterious and adventurous sea has a natural appeal for children, And rooted in childhood fantasies, fantasizing the rudder of a pirate ship in search of the mysterious sea Adopting the popular "pirate ship" elements as the design theme, simulate the space of the pirate ship There are observation decks and sails. The shapes are vivid and realistic, as if they are really in the ocean. Create a unique play space Children can adventure on pirate ships and explore new worlds on their own boats, The design of the overall wooden structure is ingenious and very naturally integrated into the surrounding environment. Added fun and richness to the play environment.

The dynamic wave peak

Inspired by the flowing and undulating patterns of ocean waves Subvert the conventional structure of traditional rope nets to form a giant wave-like structure For children to play "dynamic peak wave" is a psychological and physical challenge Climb from the ground floor to the top Tests children's courage and stimulates the curiosity of children in other regions to climb the summit The high and low gradients gradually rise from the bottom to the high to form a wavy peak. Safety considerations, using the characteristics of the rope structure The design of high and low wave feeling is also a consideration of the sports ability of children of different ages The dynamic wave crawling stimulates the children to bend over and try, and the limbs cooperate with each other to maintain the balance The ups and downs continue to encourage children to go forward and explore!

Forest Cottage Series

NANJING WANDE GROUP

Children's vitality and potential is unlimited. During their childhood, we should help them develop their independent thinking ability and protect their curiosity through exploration and experiences, since those are basic to independent thinking. Creating more situations for children to think is the basic function of our facilities.

99007213

99007212

The recreational facilities we designed are participatory and challenging, which can satisfy children's psycholoical needs of curiosity, emulation, and exploration. All activities are full of challenges and can meet the various requirements of letting children toparticipate, compete, and explore.

Modern Series

Though the recreation facility looks simple, the content of the design is supported by a great amount of scientific data. How many steps can help people achieve the warm-up effect? How big should the hole of the nets in order to meet the safety requirements while at the same time keep it challenging to childern? These are for us to research.

The fairy tale series incorporated the elements of lovely puppets and animals which are easily accepted by children as friends. The overall design is full of magic power just like fairy tales, which attracts children to enter the magic world and inspires their curiosity. During their exploration, their psychological need of adventures will be satisfied. They will build their sense of achievements and self confidence through successfully exploring the unknown environment.
